Experience

Associate Frontend Developer

August 2023 – Present

Oodles Technologies

Gurgaon, India

- Improved app load time by 30% using code splitting and lazy loading techniques, resulting in faster Time-to-Interactive and reduced bounce rates.
- Played a key role in implementing Single Sign-On (SSO) using OAuth2, enabling a unified authentication experience and a single source of truth for user identity across the platform.
- Collaborated with PMs and engineers to remove 15% of sprint blockers by improving tech feasibility reviews and contributing to grooming sessions with technical insights.
- Converted Figma mock-ups into responsive React components, enhancing website interactivity.

Frontend Developer

May 2022 – July 2023

Technogetic pvt. limited

Mohali, India

- Developed a reusable UI component library using Storybook, improving cross-team delivery speed by 20% and ensuring consistent design across multiple projects.
- Transformed mock-ups into fully functional web pages improving website functionality and user experience.
- Improved customer experience by implementing responsive, high-performance web interfaces and reducing CLS and LCP metrics significantly using performance best practices.

Projects

BookMe | [Live Preview](#)

December 2023 – February

2024

- Built a travel booking platform using React, Next.js, and Tailwind CSS. Integrated REST APIs for real-time search, improving load time by 25%.

Healthify | [Live Preview](#)

April 2024 – June 2024

- Created a patient management app with React and Redux, featuring push notifications via Firebase for appointment updates.

Awards & Recognition

Cheerful Coder

- Recognized at Technogetic for consistently delivering high-quality solutions with a positive attitude.

Education

Kurukshetra University

July 2019 – June 2022

Bachelor in Computer Applications

Kurukshetra, India
